There is also hope in awareness and education, which offer patients opportunities to discuss and learn about their disease, provide more resources for research and treatment options for PKD, and lead to more events to heighten visibility and aid in fundraising. As I said earlier, not many people know about the disease, even in my home State of Utah where PKD rates are three times the national average.

To promote greater understanding of this destructive genetic disease, Senator KOHL and I have introduced this resolution to designate a National Polycystic Kidney Disease Awareness Week.

I urge my colleagues to support it.
